

Care & Maintenance Instructions

- Whilst resin is highly durable and shatter proof. It should be handled with care.
Food safe and FDA approved
- Dishwasher safe
- Not suitable for use in conventional ovens or microwaves
- Do not use under heat lamps or on the stove top
- A frosty film may appear on the resin after washing over time. This is easily removed.
- Use a small amount of cooking oil, rub with a soft cloth and rinse. The resin will return to it's original luster
- Light scratches and scuff marks are also easy to remove. Use a mild abrasive scouring pad and lightly rub the scratches with the pad. A little soap and water or cooking oil on the pad further enhances the appearance.
- Never use sharp or serrated knives on the resin. Scouring from sharp instruments can not be removed.
